SUMMARY

Aspiring Computer Science Engineer and full-stack developer with proven experience building scalable web applications. Proficient in Java, JavaScript, and the MERN stack, with a strong foundation in data structures, algorithmic problem-solving, and agile version control. Focused on optimizing backend APIs and engineering intuitive user experiences.

SKILLS

- **Programming Languages:** Java, JavaScript
- **Tools & Platforms:** Git, GitHub, VS Code, IntelliJ IDEA
- **Web Technologies:** HTML5, CSS3, JavaScript, React.js, Node.js, Express.js
- **Core Computer Science:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)
- **Core Competencies:** Software Development, Agile Methodologies
- **Databases:** MySQL, MongoDB

EDUCATION AND TRAINING

Bachelor of Engineering: Computer Science and Engineering (Expected May 2027)

V.S.B College of Engineering Technical Campus – Coimbatore, TN

- CGPA: 7.52 / 10

Higher Secondary (12th Standard) (Graduated 2023)

Vivek Vidyalaya Matric Hr Sec School, Coimbatore,

Secondary School (10th Standard) (Graduated 2021)

Vivek Vidyalaya Matric Hr Sec School, Coimbatore

EXPERIENCE

Full Stack Developer Intern | Grow Your Skills (May 2025 – August 2025)

- Engineered 5+ responsive web applications utilizing HTML5, CSS3, and JavaScript, boosting cross-browser compatibility and reducing layout shifts.
- Optimized website navigation and core UI/UX elements, improving mobile responsiveness and accessibility scores across major desktop and mobile viewports.
- Collaborated within a remote development team via Git, leveraging Agile sprints to ship front-end features 10% ahead of schedule while maintaining strict code quality standards.

ServiceNow Virtual Internship Program | ServiceNow University (May 2026 – June 2026)

- Accelerated platform knowledge by mastering ServiceNow Administration, IT Service Management (ITSM), and automated enterprise fundamentals.
- Configured automated workflows utilizing Flows, Reports, and the Automated Test Framework (ATF) to streamline process design and enterprise efficiency.
- Evaluated Agentic AI capabilities and platform configurations to design mock reporting dashboards, strengthening skills in enterprise application management.

PROJECTS

EXPENSE TRACKER | MongoDB, Node.js, Express.js, React.js

- Architected a full-stack MERN application featuring financial transaction logging, budget planning modules, and real-time expense categorization.
- Implemented secure RESTful APIs integrated with JWT-based authentication, protecting sensitive user data and restricting unauthorized endpoint access.
- Executed optimized CRUD operations using MongoDB, ensuring efficient data retrieval and efficient synchronization of user expense records.
- Designed a modular React.js frontend with 10+ reusable UI components, ensuring a seamless, fluid user experience across mobile and desktop devices.

HAIRLOON | HTML5, CSS3, JavaScript, Machine Learning

- Developed a web-based salon discovery and hairstyle recommendation platform to modernize personalized grooming choices.
- Integrated a Machine Learning-based face shape analysis model to process facial features and instantly generate tailored hairstyle suggestions.
- Constructed an interactive appointment scheduling module that streamlined booking workflows and improved booking workflow efficiency.
- Deployed location-based salon discovery leveraging browser geolocation APIs to instantly fetch and rank nearby salons based on user proximity.

CERTIFICATIONS & ACHIEVEMENTS

- **Algorithmic Proficiency:** Successfully solved 300+ Data Structures and Algorithms (DSA) problems on LeetCode.
 - **Leadership:** Selected as Campus Ambassador for GlowLogics Solutions (2025).
 - **Technical Credentials:**
 - Java (Basic) Skill Certification – HackerRank
 - Responsive Web Design Developer Certification – freeCodeCamp
 - ServiceNow Administration Fundamentals – ServiceNow University
 - TCS iON Career Edge (Young Professional) – Tata Consultancy Services
-
